Personal Summary

An ambitious, highly motivated, and energetic customer-oriented individual, with multiple years of experience in Hospitality. Completed a Computer Science degree with a major in Artificial Intelligence at Western Sydney University, working with Unix, MacOS, and Windows. Created mobile applications cross-platform using Swift, Android Java, and SQL, along with web applications using React.js, Node.js, PHP, JavaScript, CSS and HTML. Completed modules relating to Systems Programming 1, Data Structures and Algorithms, and Artificial Intelligence using C, C++ and Python. Experience using Tableau to create visualisations on large relational datasets. Developed interactive applications tailored to airport staff roles, such as flight information, security cameras, baggage tracking, task scheduling via APIs, tested on AWS and deployed on Azure using Microsoft CI/CD development. Looking to use existing knowledge gained through my degree and work experience and gain new knowledge to further my development in the IT industry.

Skills

- Outstanding people skills
- Leadership & Proactive
- Ability to work in a fast-paced environment
- Punctuality
- Time management
- Teamwork
- Professionalism
- Web & App Development
- Full Stack Development
- Collaboration
- Communication

Projects at University

https://shadybooth.github.io/Portfolio/

Mobile App Development: Cinema movie database **(99/100 Android)**, **(100/100 iOS)**.

Computer Graphics: 2D Graph interactable **(92/100)**, 3D Graph interactable **(93/100)**.

Technology Web Applications: Music playlist database **(98/100).**

Object Oriented Programming: Eater Game **(100/100)**, Booking System App **(100/100).**

Artificial Intelligence: Tic Tac Toe & Sliding **(100/100)**, Backward chaining App **(100/100)**.

Robotics Programming: AI Sudoku Board **(100/100).**

Professional Development: Theoretical Business Proposal **(83/100).**

Professional Experience: Practical Business Proposal **(82/100).**

Machine Learning: Supervised Manifold reduction model **(100/100).**

Visual Analytics: Large Relational Datasets **(85/100)**, Multidimensional Data Visualisation **(87/100)**

Education

Study Tour: Enhancing Applications to a Global Environment

Sri Lanka, November 17th - December 1st, 2024

- Participated in real-world data collection, focusing on demographics and factory worker interviews for data analysis.
- Collaborated with University of Colombo, Open University, and University of Peradeniya on cross-cultural projects and in class activities.
- Applied Data Science techniques to analyse and interpret data.

UNIVERSITY OF WESTERN SYDNEY, PENRITH

Bachelor of Computer Science (AI Major)

Completion: Dec 2024

GPA 6.33

ST MARYS SENIOR HIGH SCHOOL, ST MARYS

2020 - 2021

ST DOMINIC'S COLLEGE, PENRITH

2016 - 2019

Certificates

Deans Merit List 2023 Certificate, Western Sydney University.

CCNA: Introduction to Networks.
